c. Describe the purpose of this DoD information system or electronic collection and describe the types of personal information about individuals collected in the system.

The Reserve Database Maintenance System (RDMS) Interface Control System (RICS) is the front-end processor for RDMS transactions to be applied to the Total Army Personnel Data Base-Reserve (TAPDB-R). RICS processes incoming data from the TAPDBs for Active Enlisted, Active Officer, and Army National Guard via the Mail Box Information System and Inter Component Data Transfer, and from the Army Recruiting Information Support System, to include personnel gains and losses from the Active Army, US Army Recruiting Command, and the Army National Guard. Other information processed includes verified Social Security Number information from the Social Security Administration, information from the Army Training Requirements and Resources System, and Defense Language Institute data. RICS formats RDMS transactions and sends them to the Army Reserve Transaction Management System, which applies the transactions to TAPDB-R.

PII collected includes personal, contact, dependent, financial, medical, disability, law enforcement, employment, education, and military record data.

d. Why is the PII collected and/or what is the intended use of the PII? (e.g., verification, identification, authentication, data matching, mission-related use, administrative use)

PII is collected for verification and authentication. Once the transactions are formatted, they are sent to ARTRAMS for validity and compatibility editing before being applied to TAPDB-R.

The intended use is both mission-related and administrative.

e. Do individuals have the opportunity to object to the collection of their PII? Yes No

(1) If "Yes," describe the method by which individuals can object to the collection of PII.

(2) If "No," state the reason why individuals cannot object to the collection of PII.

Individuals are not involved in the data collection process. However, Soldiers consent to capture and use of their PII at the time of employment in the Army, at which time they are provided a Privacy Advisory.

f. Do individuals have the opportunity to consent to the specific uses of their PII? Yes No

(1) If "Yes," describe the method by which individuals can give or withhold their consent.

(2) If "No," state the reason why individuals cannot give or withhold their consent.

Individuals are not involved in the data collection process. However, Soldiers consent to capture and use of their PII at the time of employment in the Army, at which time they are provided a Privacy Advisory.

g. When an individual is asked to provide PII, a Privacy Act Statement (PAS) and/or a Privacy Advisory must be provided. (Check as appropriate and provide the actual wording.)

- Privacy Act Statement
 Privacy Advisory
 Not Applicable

Individuals are not involved in the data collection process. However, Soldiers consent to capture and use of their PII at the time of employment in the Army, at which time they are provided a Privacy Advisory.

Specify.

HRC contracts contain language addressing the applicable FAR privacy clauses and acknowledge the sensitivity of PII and describe the importance of protecting and maintaining the confidentiality and security of an individual's PII in the associated task orders. The contractual language keys on training as a fundamental element in creating awareness and understanding of PII and why it is important to control and safeguard. The language also stresses securing PII material and equipment housing PII at the end of a work day. Contractual language directs and requires each contract employee in support of this system to have a valid Secret clearance prior to working on the program. Contracts specifically state that contractor personnel shall adhere to the Privacy Act, Title 5 of the U.S. Code, Section 552A and applicable DOD, Army, and HRC rules and regulations.
