

U.S. ARMY Office of Business Transformation

Mr. Harris Quddos

Deputy Director

U.S. Army Office of Business Transformation (OBT)

As Deputy Director, Mr. Quddos serves as the principal advisor to the OBT Director and supports the Under Secretary of the Army/Chief Management Officer. He is responsible for implementing global management and technology strategies, addressing business and policy challenges, advancing data management and data analytics, maturing the Army Business Enterprise Architecture, improving enterprise portfolio management, refining business and management practices, and promoting a culture of innovation and improvement.

BIOGRAPHY

Prior to joining the Senior Executive Service, Mr. Quddos amassed over 25 years of experience in the private sector delivering large-scale digital and business transformation for some of the world's largest organizations.

Prior to joining the Army, Mr. Quddos served as an executive level, Independent Digital Enterprise Strategy Advisor for Tronox, a global chemicals and mining company. He also served as the senior advisor to the Office of Modern Architecture at ExxonMobil. In this position, he spearheaded the enablement of Digital Transformation through the practice of modern Enterprise Architecture. In these positions he provided thought leadership and led efforts to define modern digital architectures and standards that resulted in highly efficient enterprise-wide digital strategies and cutting-edge technological innovation.

Mr. Harris Quddos holds a bachelor's degree in Electrical Engineering from the University of Houston, has been published in SAP Professional Journal, and is an Advisory Board Member for GlobUC.
