

Chapter 10

Section B

Enlisted physical demands categories

10-2-1. General

This chapter provides the occupational physical assessment test (OPAT), allows the Army to screen applicants for their ability to succeed in their assigned specialty prior to entering active duty or active duty for training. Local commander are responsible for ensuring the OPAT is administered prior to approval of the soldier's reclassification, or branch transfer when applicable.

10-2-2. Specifications for enlisted physical demands

This chapter contains physical demands for each enlisted specialty. The chapter is organized by each specialty and defined as 10-XXX-1 where XXX represents the enlisted specialty. For example the physical demands for 13B, Cannonner Crewmember are located in section 10-13B-1. Additionally, a consolidate listing of the all enlisted categories is located in figure 10-2-1.

10-2-1. Enlisted OPAT Physical Demands Categories

The occupational physical assessment test (OPAT), allows the Army to screen applicants for their ability to succeed in their assigned specialty prior to entering active duty or Nominative CSMs at the Division Level and higher, not specifically listed for a Physical Demand Category are classified as Moderate (gold) unless otherwise directed by the SMA.

The OPAT categories for each enlisted specialty are:
