

**Canvass Announcement:** Canvass – 2308 - 0346-03 - FARA

**Position Title, PP-Series-Grade:** Logistics Management Specialist, NH-0346-03

**Location:** US Army Acquisition Support Center, Office of the Program Executive Office, Aviation (PEO AVN), PMO Future Attack Reconnaissance Aircraft (FARA), Redstone Arsenal, Alabama

**Who May Apply:** Current permanent Department of Army Employees within the local commuting area may apply for this canvass. This canvass is a permanent reassignment.

Due to the level of duties to be performed, only employees currently at the NH-03 or equivalent (i.e., GS-12/13) will be considered.

**Salary Range:** \$82,266 - \$127,170 per year

This is a pay banded position. The NH-03 band encompasses grades 12-13 under the General Schedule (GS) system.

**Open & Close Dates:** 8 December 2022 through 18 December 2022

**Funding:** Permanent Change of Station/Relocation are not authorized.

**Number of Vacancies:** 4

Additional candidates selected from this canvass may be used to fill similar vacancies within PEO Aviation.

**Specialized Experience:** In order to be found qualified for this position your resume must describe one year of experience at the NH-02/GS-11 level which includes assisting in the overall implementation and administration of programs, systems, and procedures essential for effective accomplishment of equipment management programs. Experience also must include as its primary function, coordinating logistical functions such as property accountability, inventory management, catalog management, disposal management, logistics automation, logistics analysis, and utilizing various enterprise systems.

This definition of specialized experience is typical of work performed at the next lower pay band or grade/level position in the federal service (NH-02/GS-11) or above.

Some federal jobs allow you to substitute your education for the required experience in order to qualify. For this position, you must meet the qualification requirement using experience alone--**no substitution of education for experience is permitted.**

## **MAJOR DUTIES:**

- A. Serves as an expert logistics management specialist, concerned with directing, developing, and performing logistics management operations that involve planning, coordinating, and evaluating the execution of Integrated Logistics Support (ILS) for major complex systems that encompass new and emerging technologies or complicated fielding requirements.
- B. Responsible for total, cradle to grave intensive logistics management to support a complex, major weapons system from concept through field deployment.
- C. Performs the full range of planning, liaison, contract monitoring, equipment and organizational interface, control of other government elements supporting the effort, and logistics phases of field exercises and tests.
- D. Oversees most or all of the logistics elements (i.e., maintenance planning; manpower and personnel; supply support; support and test equipment; training and training devices; technical data; computer resources support; and packaging, handling, storage, transportation, and facilities) for one or more acquisition programs.
- E. Implements PEO/DA/DOD policy and procedures of acquisition to provide support of the program managers requirement to field fully supportable systems/equipment and meeting operational requirements for the soldier in the field.
- F. Resolves complex logistics problems affecting numerous activities and units spread over large geographical areas.
- G. Manages the processes of planning, directing, managing, monitoring, and evaluating and correcting deficiencies in ILS throughout the research, development, and acquisition process.
- H. Support includes the management and interface with logistics element managers, contract support services, training facilities, Integrated Logistics Support Management organizations and other service users at contractor facilities and government activities.
- I. Develops, interprets, and/or applies a wide range of DOD, Army and PEO acquisition and logistics policies, directives, and precedents.
- J. Responsible for the coordination, preparation, evaluation and review of ILS management and planning documents assuring that tailoring, streamlining, and acquisition reform are considered and applied.
- K. Develops documents used for preparation of basic life cycle funding and budgeting to support the acquisition of the system/equipment.
- L. Establishes or ensures the establishment of ILS requirements for acquisition documents and contracts.
- M. Evaluates, plans, and develops and assures the implementation of collective actions and changes to reflect new requirements, technologies, and safety concerns.
- N. Applying the principles of life cycle management, and as component expert, considers facilities, equipment, geographic/climatic conditions, and usage projections to oversee and monitor the planning and implementation of comprehensive DOD component logistics programs to include depot maintenance and integration with environmental and safety requirements.
