Retransmission Precombat Check/Precombat Inspection

- Weapons/Ammo/sensitive items inventory
- Global Positioning System
- Night observation devices tested
- Simple key loader
- Communications card
- Maps, protractors, and compasses
- Systems Planning Engineering and Evaluation Device (SPEED) assessment
- PMCS on all equipment
- Top off vehicles/fuel cans
- Basic issue item is present
- Complete combat lifesaver's bag
- PMCS radios/Joint Capabilities Release /antennas
- Batteries plan (spares for all equipment)
- Cables installed
- Hand microphones with spares
- Speakers
- Load retransmission (RETRANS), communications security (COMSEC) and frequencies
- Radio check with adjacent/supported units
- Load plan (Equipment that is used first is available)
  - Personnel manifest
  - Equipment manifest
- 7-day supply of food and water
- Camouflage netting layout
- All items are secured/tied down/dummy cord

- Recommended retransmission equipment:
  - 6 complete antenna systems
  - Tent/heater
  - Extension cords
  - Tool boxes
  - PRM-34/PRM-36
  - Petroleum, oil, lubricants (POL)
  - Boxes (2) Containing:
    - Spare cables
    - Spare ground cables
    - Trash bags
    - Connectors
    - Toilet paper
    - Tape (100mph/electrical)
    - Chemlights
    - Mechanical pencils
    - Binoculars
    - All applicable manuals
    - AN/PRC-119 complete

Pre-Mission Brief

- Commander's intent
- Convoy/ramp brief
- Primary, alternate, contingency, emergency (PACE) plan
  - Frequencies
  - COMSEC
- Jamming plan
- Supported unit's scheme of maneuver
- Location and role of supporting units

- Enemy Situation
  - Primary enemy location - update daily
  - Most likely enemy actions
  - Tactics, techniques, and procedures against remote sites like RETRANS sites
  - Primary and alternate avenues of approach
  - If the enemy threat requires an escort, then identify escorting unit
- Timeline of operations
- Weather and terrain
- Location of site
  - **Terrain masking technique** - *__Do not skyline yourself__*
  - Primary/alternate location - explain movement triggers
  - Antenna placement plan - know where the enemy is in relation to the operation, and shield transmissions from the enemy
- Site security/site defense plan - vital and continuous
  - Supporting security elements
  - Internal security plan
  - Site concealment/camouflage
  - Concertina wire
  - Range card/Fires Plan
- Compromise Plan
  - Emergency destruction plan
    1. **COMSEC**
    2. **Documents/maps**
    3. **Equipment**
  - Escape and evasion plan
- Resupply plan and reporting plan
