

Gabriel Saliba

Product Lead, Logistics Modernization Program

Gabriel Saliba serves as the product lead for the U.S. Army's Logistics Modernization Program (LMP). In this role, he exercises centralized authority and control over one of the largest enterprise resource planning (ERP) implementations in the U.S. Army and across the Army Materiel Command's (AMC) national-level logistics environment.

Saliba oversees day-to-day operations for the management and execution of funding, contracts, priorities, schedules, personnel, facilities and work performed by the LMP and various supporting organizations. He also interacts with senior stakeholders at AMC, as well as the Office of the

Secretary of the Defense (OSD), Headquarters Department of the Army (HQDA) and other DOD agencies and Congress.

Over several years, Saliba previously served as the LMP acting product manager, product director and deputy project director, responsible for overseeing the program's day-to-day operations, including enterprise expansion, contract management, and budget and finance requirements. Prior to those roles, he was also LMP's assistant project manager for Enterprise Expansion, where he was responsible for deployment activities, including data management, solution development management, and business transformation, as well as sustainment of both the modernized LMP and legacy systems. Since 2000, Saliba held various positions with the LMP, both as an Army chief warrant officer and a government civilian. He served as the sales and distribution functional team lead, production support manager, and chief of the Modernization and Integration Division, also maintaining responsibility for the integration of the Army Single Stock Fund (SSF) business rules into LMP. Prior to LMP, he served as the Communications-Electronics Command (CECOM) Lifecycle Management Command (LCMC) equipment manager, property book officer and senior retail logistics advisor with command-wide responsibility for property accountability and supply discipline. He also served with various tactical Army units worldwide as a noncommissioned officer and a chief warrant officer in the supply field of logistics.

Among numerous performance and special act awards, Saliba has earned the Commander's Award for Civilian Service, the Superior Civilian Service Award, and the Meritorious Civilian Service Award. In October 2014, Saliba was selected for the Integrated Logistics Support (ILS) Specialty Award and was chosen as the Logistician of the Year by the Greater Washington Area Chapter International Society of Logistics.

Saliba holds a Bachelor of Science in business and management from the University of Maryland and a Master's of Business Administration from Strayer University. He is a member of the Army Acquisition Corps, has an advanced Defense Acquisition Workforce Improvement Act certification in program management, and holds a Project Management Professional certification from the Project Management Institute.
