

Marie Dupont
Business Management Division Chief
Logistics Modernization Program (LMP)

Marie Dupont serves as the Logistics Modernization Program (LMP) Business Management Division chief. In this role, she oversees the LMP Product Management Office's (PMO) operations, contracts, business capabilities acquisition, and resource management teams.

Dupont oversees daily operations, promotes meaningful management strategies, and manages funding, contracts, priorities, schedules, personnel, and facilities. She leverages almost three decades of management and client relations experience to deliver requirements, meet deadlines, and create lasting relationships with her team and senior stakeholders, including the Army Materiel

Command, the Office of the Secretary of the Defense, Headquarters Department of the Army, and other DOD agencies.

She was previous with the Securities Industry Automation Corporation, where she developed annual, quarterly, monthly, and daily business plans and reports that not only increased efficiency but prioritized statistical analysis for improvement. She moved on to Morgan Stanley, serving as a senior associate and budget analyst for seven years, maintaining control over budgetary projects, acting as a business unit liaison, developing successful management strategies, and offering advice and research for the company's accounting efforts. She next spent several years as an advanced budget analyst for Tecolote Research Inc. and the U.S. Army Program Executive Office, Enterprise Information Systems in both Fort Monmouth, NJ, and Fort Belvoir, VA. Over the years, Dupont refined her expertise as a quantitative analyst and continued down the path toward management, as seen in her positions as resource manager for the U.S. Armament Research Development and Engineering Center, and as the acquisition analyst for the Combat Capabilities Development Command Armaments Center.

Dupont received her bachelor's degree in computer-integrated information systems from Long Island University, and a master's in telecommunications from Pace University. She holds advanced Defense Acquisition Workforce Improvement Act (DAWIA) certification in Business Financial Management.
