Join Existing Unit on DVIDS

How to join a unit that already exists on DVIDS

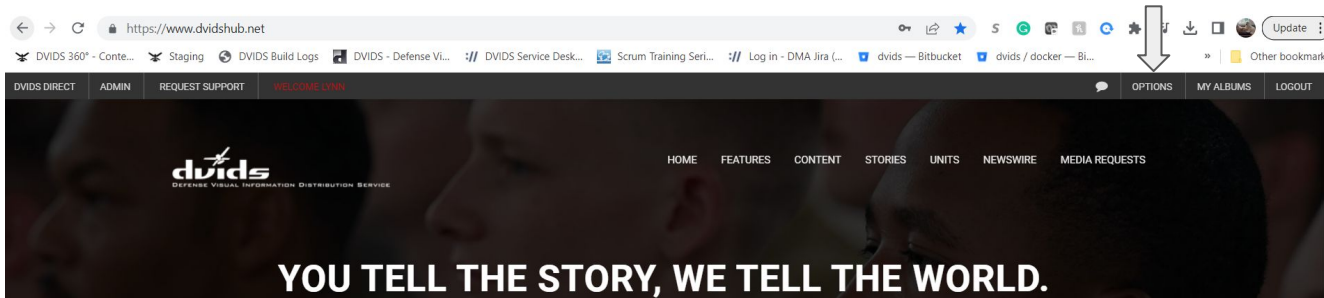

# Join a Unit

First things first - you need to have a DVIDS account with a validated .mil email address. Make sure your account settings are properly set to access the Content Management System (CMS). If you have trouble - contact the DVIDS Service Desk at: [dvidsservicedesk@dvidshub.net](mailto:dvidsservicedesk@dvidshub.net).

Account Type: Military Public Affairs/Combat Camera

Site Wide Role: Personnel

Then you need to join a unit page. Login > Options > Join Unit > Submit Form. A unit admin will be notified to approve your request.

# Join a Unit

Once a unit admin approves the request to join, you will receive an email notification of approval and then you can upload content, using the SOPs as a guide.
