U.S. ARMY

MISSION AND INSTALLATION

CONTRACTING COMMAND

The U.S. Army Mission and Installation Contracting Command is a major subordinate command of the U.S. Army Contracting Command. MICC Soldiers, civilians, and contractors support Soldiers and their families in the continental United States and Puerto Rico by delivering ready, decisive, and synchronized business solutions and contracting support to the Army enterprise.

Headquartered at Joint Base San Antonio-Fort Sam Houston, Texas, the MICC is a one-star command made up of about 1,500 Soldiers and Civilian employees assigned to two contracting support brigades, two field directorates, 9 contracting battalions and offices across 30 locations within the continental United States that provide contracting support to the Army enterprise.

The MICC delivers the power of Army contracting by acquiring equipment, supplies, and services vital to the U.S. Army mission and the well-being of Soldiers and their families. The command also supports the Army's contingency and wartime missions by rapidly deploying trained and ready contingency-contracting Soldiers around the world to procure goods and services in austere environments to win in multi-domain operations. Contracting brigades and battalions are strategically aligned to provide operational contract support to their respective corps or divisions when deployed.

MICC-contracted services and supplies touch virtually every Soldier in the Army from facilities support services, commercial and institutional building construction, and administrative and general management consulting services to wired consulting services, telecommunication, and engineering services contracted food services, advertising and transition services. The MICC ensures America's Soldiers and their families have what they need during and after military service.

ACC designated the MICC as its lead for installation readiness to provide acquisition insights and ensure Army installations are capable of supporting current and evolving readiness and power projection requirements.

MICC contracts are vital in feeding more than 200,000 Soldiers every day, providing many daily base operations support services at installations, preparing more than 100,000 conventional force members annually, facilitating training for more than 100,000 students each year, and maintaining more than 14.4 million acres of land and 170,000 structures. In fiscal year 2024, the command executed more than 22,000 contract actions valued at nearly \$5.5 billion across the Army, including \$3 billion to American small businesses. The command also manages the Army's largest and most complex Government Purchase Card Program, administering nearly 366,000 GPC transactions in fiscal year 2024 valued at an additional \$567 million.

With a wealth of contracting expertise, MICC professionals are dedicated to providing the highest quality of contracting support to all of their mission partners, whenever and wherever needed. The responsive contracting solutions and oversight provided by the command serve as a force multiplier in ensuring the Army is ready to fight and win.

WELCOME TO THE LONG BARRACKS

The historic Long Barracks at Joint Base San Antonio-Fort Sam Houston serves as the home for the U.S. Army Mission and Installation Contracting Command headquarters. The storied history of Long Barracks and occupants have made a critical impact on this nation in times of war and peace since its construction in 1887. Today it serves as a symbol of how Soldiers and Civilians Win Every Day!

THE ARMY SONG

March along, sing our song,
with the Army of the free.
Count the brave, count the true,
who have fought to victory.
We're the Army and proud of our name!
We're the Army and proudly proclaim:

First to fight for the right,
And to build the Nation's might,
And the Army goes rolling along.
Proud of all we have done,
Fighting till the battle's won,
And the Army goes rolling along.

Then it's hi! hi! hey!
The Army's on its way.
Count off the cadence loud and strong;
For where'er we go,
You will always know
That the Army goes rolling along.
