

Stephanie E. Litter-Reber

Biography

Stephanie has 30 years of experience in information technology. Starting in the US Navy as a Cryptologic Technician Maintenance (CTM), she served tours at NSGA Edzell, Scotland, NSGA Rota, Spain, and VQ2 Rota, Spain maintaining main frames, satellite systems, installing a variety of network infrastructures, and managing emerging LANs/WANs. Upon exit from the US Navy, Stephanie worked as a contractor for DISA Europe, serving as an X.500 Directory Analyst; a contractor for DigitalNet/BAE as a Cross Domain Integration Engineer; Lockheed Martin as an iDMS Integration Engineer; and CACI as Senior Linux Engineer. During this time, Stephanie also served with the Pennsylvania Air National Guard as a Cyber Transport Specialist (3D172). Stephanie entered civilian government service in 2010 with FEMA, serving in the roles of senior Linux engineer, Active Directory/EntralD lead engineer, and Branch Chief of the Operations Systems Management Branch and the Operations Application Management Branch.

Stephanie holds a bachelor's in information technology from AIU and several certifications.
