

Chapter 3

Section A

Officer physical demands categories

3-1-1. General

This chapter provides the occupational physical assessment test (OPAT), allows the Army to screen applicants for their ability to succeed in their assigned specialty prior to entering active duty or active duty for training. Local commander are responsible for ensuring the OPAT is administered prior to approval of the soldier's reclassification, or branch transfer when applicable.

3-1-2. Specifications for enlisted physical demands

This chapter contains physical demands for each officer specialty. The chapter is organized by each specialty and defined as 3-XXX-1 where XXX represents the officer specialty. For example the physical demands for 13A, Field Artilleryman are located in section 3-13A-1. Additionally, a consolidate listing of the all enlisted categories is located in figure 3-1-1.

3-1-1. Officer OPAT Physical Demands Categories

The occupational physical assessment test (OPAT), allows the Army to screen applicants for their ability to succeed in their
 All General Officers are categorized Moderate (Gold) regardless of component.

The OPAT categories for each officer specialty are:

AOC	TITLE	GRADE BAND	CATRGORY

Physical requirements for AOC 11A

Skill level	Task numbers	Tasks
2LT-1LT	1,2,3,4,5,6,7,8,9,10,11	1. Constantly performs all other tasks while wearing/carrying a minimum of 80 pounds (uniform and combat equipment), evenly distributed over entire body. 2. Occasionally drags 268-pound person 15 meters, while wearing ~80 pounds of uniform and combat equipment. 3. Frequently digs, lifts, and shovels 11-pound scoops of dirt in bent, stooped or kneeling position while wearing ~70 pounds of uniform and combat equipment. 4. Frequently walks, runs, crawls, and climbs over varying terrain and altitude changes for a distance of 20 kilometers during a 24 hour period while wearing/carrying 103 pounds of uniform and combat equipment, evenly distributed over the entire body, after which Soldier must retain the ability to perform all other physical requirements. 5. Frequently sprints 100 meters (in 3 to 5 second rushes) rising from a prone or kneeling position while wearing/carrying ~80 pounds of uniform and combat equipment. 6. Occasionally, lifts 207-pound person 1 meter as member of a 3 Soldier team (prorated to 69 pounds) while wearing ~70 pounds of uniform and combat equipment. 7. Frequently lifts, carries for up to 10 meters, and emplaces 30-40 pound sandbags at waist to shoulder height while wearing ~80 pounds of uniform and combat equipment. 8. Frequently throws 1-pound grenade distance of 35 meters while wearing ~80 pounds of uniform and combat equipment. 9. Frequently lifts 45 pounds (weight of ammo can), carries 15 meters at waist height while wearing ~80 pounds of uniform and combat equipment. 10. Frequently scales 2-meter vertical obstacles with assistance while wearing ~80 pounds of uniform and combat equipment. 11. Occasionally lifts 65 pounds (weight of TOW 2B Missile) vertically 1 meter and carries 2 meters at shoulder height while wearing ~70 pounds of uniform and combat equipment.
