

U.S. ARMY MEDICINE

The U.S. Army Medicine logo is the most recognizable symbol of our brand, a clear and powerful expression of who we are, what we do, and what we represent. Derived from the iconic U.S. Army star, the logo incorporates a cross to reflect the professions of arms and medicine, while also illustrating Army Medicine's integration across all Army commands and components. The cross is a timeless symbol of U.S. Army Medicine, inclusive of all professions.

This logo integration signifies U.S. Army Medicine's unwavering support to our Army. Since 1775, U.S Army Medicine has enabled our Army to fight and win our Nation's wars. Yesterday, today, and always, wherever the U.S. Army goes U.S. Army Medicine stands shoulder to shoulder with our Soldiers.

Combined, the U.S. Army star and cross represent Army Medicine's promise to sustain Soldier lethality, provide combat ready care, and rehabilitate our Warfighters.
