

Military Surface Deployment and Distribution Command

Customer and Carrier Advisory

July 8, 2025

CA-25-07-08/0037

Subject: Transition to Integrated Booking System Cloud Native (IBS CN)

Purpose: To provide guidance for obtaining IBS CN account access

Be Advised: Legacy IBS applications have reached the end of their service life and will be sunset. IBS CN is being launched to fulfill surface movement requests (MR) under the Universal Services Contract (USC).

All USC Ocean cargo bookings for vessels sailing 1 SEP 25 and after must be entered into IBS CN. Cargo sailing on or before 31 August 2025 will continue to be processed in the legacy IBS system.

1. Action required: Current IBS legacy users must request access to IBS Cloud Native Application to maintain their ability to submit movement requests (MR) for cargo sailing on or after 1 September 2025. Access can be requested at:

<https://eta-teams.transport.mil/teams/login>

IBS-CN App	IBS-CN User Role	Legacy IBS Equivalent
Booking	Commercial Carrier User - Booking	New Role
	GEN_USER_BK Government user READ-WRITE	View Only
