

U.S. Army Transportation Command (ARTRANS)

Customer and Carrier Advisory

October 30, 2025

CA-25-10-30/0069

Subject: Upgrade of Transport Layer Security for Global Freight Management (GFM)

Purpose: Inform Global Freight Management (GFM) users of a pending system security upgrade.

Be Advised: This advisory announces a mandatory upgrade to Transport Layer Security (TLS) 1.2 or later to maintain secure access to Global Freight Management (GFM). This upgrade is essential for protecting our program and complying with evolving security standards. This upgrade is scheduled for 3 DEC 25.

Impact: Users operating Windows versions prior to Windows 10 may **no longer be able to access GFM** after 3 DEC 25.

Required Action: Upgrade your Windows operating system to Windows 10 or a later version. Verify TLS 1.2 is enabled. You can check if TLS 1.2 is enabled on your Windows PC by going to **Internet Options > Advanced** and looking for the "Use TLS 1.2" checkbox under the Security section.
