

Special Forces (CMF 18) Career Progression Plan

DA PAM 600-25

1 JUNE 2025

Chapter 1. Duties

CMF 18, the Special Forces (SF) contingent of the Army's Special Operations Forces (ARSOF) employs SOF during peacetime, conflict, and war in support of the Joint Force. Special Forces conducts Special Operations by executing their nine core activities: Unconventional Warfare (UW), Foreign Internal Defense (FID), Security Force Assistance (SFA), Counterinsurgency (COIN), Direct Action (DA), Special Reconnaissance (SR), Counterterrorism (CT), Counter Proliferation of Weapons of Mass Destruction (CPWMD), and Operational Preparation of the Environment (OPE). Additionally, Special Forces Soldiers conduct mission-related collateral activities, which includes support to coalition operations, personnel recovery in support of combat search and rescue, non-combatant evacuation operations, counter-drug operations, counter-mine operations, security assistance, and foreign humanitarian assistance. Special Forces operations are inherently joint and sometimes multinational, requiring interagency and international coordination. Special Forces project combat power and are typically deployed as small combat maneuver units in permissive, uncertain, and hostile operational environments far from logistics support bases, in support of theater operations that often have geopolitical implications. In their doctrinal role as Unconventional Warriors, SF operations are conducted with and through resistance partners. For more information about SF doctrine refer to FM 3-18.

Chapter 2. Adaptation

Special Forces NCOs and their skillsets are increasingly relevant in today's global environment. Every SF NCO must continue to adapt to ever-changing situations by using innovative technology and systems being developed and fielded at an unprecedented pace, while maintaining the ability to be operationally effective in the absence of technologies. SF Soldiers will continue to deploy in small elements, in uncertain and austere environments, while tasked to conduct operations with geopolitical implications. They must be fully versed and competent in the latest tactics, techniques, and procedures while applying them to the situation they are facing to ensure mission success. They must be knowledgeable of the other units and services to achieve a collaborative effect on the battlefield. Principally, they must continue to be a leader and capable of accomplishing any mission.

SF NCOs should focus on continuing to develop the basics to prepare for a myriad of operational environments, future threats, and ever-changing battlespaces. SF NCOs work in small autonomous cells often detached and isolated from command. They will lead resistance partners in denied areas and politically sensitive environments. SF NCOs should continuously work to earn the confidence and trust of their leaders, capable of accomplishing the mission with minimal guidance. NCOs must be capable of making precise and timely decisions to solve complex problems.

Chapter 3. Recommend Career Management Self-Development

1. *Leadership.*

The demanding, politically sensitive, and often high-risk nature of missions that Special Forces Soldiers perform requires extremely competent Noncommissioned Officers that can succeed in an increasingly complex and dynamic contemporary operational environment. Therefore, the Special Forces branch naturally produces a high concentration of highly skilled Noncommissioned Officers. Those Noncommissioned Officers that consistently exceed standards and demonstrate mental and physical capabilities above their peers are more competitive for demanding positions and career advancement. Leaders, the Special Forces Proponent, the United States Army Human Resources Command, and the Noncommissioned Officer Professional Development System (NCOPDS) all play an essential part in the career development of the force; however, each Soldier is ultimately the true steward of their career. Noncommissioned Officers at every rank are encouraged to demonstrate their ability to exceed standards in character, presence, intellect, leads, develops, and achieves by setting the example for their peers and subordinates through personal courage, confidence, competence, military bearing, general military knowledge, and warrior skills. To assist leaders with talent management, Noncommissioned Officers at every level must seek opportunities to demonstrate their leadership potential and distinguish themselves from their peers.

NOTE: *Regarding Senior Rater comments on NCOERs, the phrase “#1 selection for promotion” should be reserved for SMs in the top 5% of other NCOs in that grade who demonstrate **Superior** Performance and Potential. The phrase “Promote now/immediately” should be reserved for those SMs in the top 24% of NCOs of the same grade who demonstrate **Outstanding** Performance and Potential. The phrase “Promote with peers” should be used for those SMs who demonstrate Average Performance and Potential.*

2. *Physical Fitness.*

The ability to conduct Special Forces operations across the competition continuum requires Special Forces Soldiers to be of the highest physical capability for operating in the most rigorous environments. All personnel must maintain a high state of physical readiness. Physical fitness contributes to a Noncommissioned Officer's overall wellness and ability to set the example for others. A holistic health and fitness (H2F) approach is essential to readiness when assessing a Soldier's physical and mental status. Additionally, it assists to design programs to sustain or improve that Soldier's ability to meet the demands of their MOSs, duty assignments, and combat-specific tasks. While it is a command responsibility to establish physical training policies and allocate sufficient resources for Soldiers to meet Army and unit standards and goals, it is an individual responsibility to meet those goals. All Soldiers are encouraged to use existing resources to assist them in making a healthy lifestyle, good dietary choices, and developing an individual goal-oriented physical training regimen. Special Forces Soldiers will meet all standards for their respective grades as specified in DA PAM 611-21 and IAW ATP 7- 22 scoring a minimum of 60 in each event and an overall score of at least 350 points. Noncommissioned Officers must meet all physical fitness requirements as directed by the command to ensure maximum mission readiness to fulfill global requirements with Joint special operations forces (SOF) partners. Must meet height and weigh IAW AR 600-9 or qualify for exception under current Army Directive.

3. *Assignments.*

NCOs are encouraged to have a diverse career assignment profile. This covers a wide range of positions and duties pertaining to and outside of one's MOS. A detailed list of Key Developmental, Nominative, Mission Critical, Mission Essential, and Mission Enhancing assignments can be found in Appendix A.

- (a) **Key Developmental** – Positions identified by the proponent as required to develop critical leadership and technical skills and experience that provide the greatest potential for advancement. Special Forces Proponent considers these positions to be on an SFOD-A, SFOD-E, SFOD-G, or in a Special Missions Unit (SMU). Company level positions such as those on a SFOD-B, SFOD-F, SFOD-H, and other company and Battalion positions, while important, are not considered Key Developmental positions. The Special Forces Regiment utilizes Professional Development Proficiency Codes (PDPCs) of 6H, 7H, and 8H at corresponding grades to denote completion of Key Development time.

- (b) **Key Billet Experience** – Leaders may further optimize the distribution of NCO talent by selecting best qualified NCOs based on their Knowledge, Skills, and Behavior (KSBs) to key positions across the enterprise. These positions are designated for experienced leaders of character who demonstrate potential and have proven their competence in a broad range of environments. Positive performance in key billets should signal **superior** performance and potential.
 - (1) **Nominative** – Nominative positions provide significantly elevated leadership experience, institutional/unit management responsibilities, and regular engagement and reporting to higher echelons of command at or beyond key responsibilities at the next rank and grade. These positions provide significant leadership experience to **best** prepare Soldiers for successful service in the next grade and beyond. **These positions require packet submissions approved by Special Forces Group (or higher) CSMs and should be filled from the top 5% of Special Forces NCOs within the Regiment.**

 - (2) **Mission Critical** – Mission critical positions provide elevated direct and indirect leadership experience, training management responsibilities, and regular engagement and reporting to higher echelons of command corresponding with key responsibilities at the next rank and grade. These positions provide additional leadership experience to **better** prepare Soldiers for successful service in the next grade. **These positions should be filled from the top 24% of Special Forces NCOs within the Regiment.**

 - (3) **Mission Essential** – These positions are required to conduct force generation, advanced training, and other staff functions.

4. *Military Education*

(a) Professional Military Education:

Promote to:	Promotion Board Eligibility	Promotion Pin-on Requirement
Sergeant	None	None
Staff Sergeant	Basic Leader Course Graduate	Basic Leader Course Graduate

Master Sergeant	N/A	Senior Leader Course Graduate
Sergeant Major	Master Leader Course Graduate for Sergeants Major Academy selection	Sergeants Major Course Graduate

NOTE: *Obtaining recognition as the Distinguished Honor Graduate, Honor Graduate, Commandant's List, or Leadership Awardee at Professional Military Education (PME) courses, or any MOS enhancing courses attended should be the goal of all Special Forces NCOs.*

(b) Functional and Institutional Domain Training: Special Forces Noncommissioned Officers should pursue formal military training opportunities that improve their survivability, tactical, and technical skills and increase their ability to lead Soldiers in any Special Forces unit that they may be assigned. This includes but is not limited to all Additional Skill Identifier (ASI), Special Qualifications Identifier (SQI), and Professional Development Skill Identifier Producing Schools (PDSI), Joint Service Courses, and International Military/Government Training. See Appendix C for a list of courses, ASIs, SQIs, and PDSIs pertaining to CMF 18 NCOs.

Soldiers interested in challenging themselves and setting themselves ahead of their peer group should compete in competitions such as the U.S. Army Best Medic Competition, U.S. Army Best Ranger Competition, U.S. Army Best Sapper Competition, U.S. Army Best Warrior/Best Squad Competition, U.S. Army Best Sniper Competition, USASOC Best Sniper Competition, Soldier and Non-Commissioned Officer of the Month, Quarter, and Year boards, and other similar competitions. NCOs at every rank are encouraged to compete for acceptance into the Sergeant Audie Murphy Club.

Soldiers of all ranks are highly encouraged to continue their military training and education through self-paced and distributed-learning platforms. Courses in a wide variety of military topics can be found at the Army Learning Management System (ALMS), Joint Knowledge Online (JKO), and the Joint Special Operations University (JSOU).

5. *Language Proficiency and Regional Expertise.*

Maintaining language proficiency, cultural expertise, knowledge of issues, and trends are a critical role within the Special Forces mission to better engage, understand, and influence partners within

the operational environment. Individuals must take every opportunity to improve their knowledge and understanding of their aligned region's history and current affairs. See Appendix D for a list of languages by category and code.

6. *Civilian Education.*

Civilian (academic) education is a component of the self-development program for Special Forces Soldiers. Early career management accelerates professional development and allows for flexibility in operational requirements and tempo. A college degree is not required for promotion, but it should look favorable, and it can be a deciding factor in identifying the Most Qualified (*Superior Performance and Potential*) NCOs. Soldiers are encouraged to pursue a degree or certificate program that relates to their MOS to receive maximum credit for previous military training. Soldiers should seek more information on this topic by utilizing the Service-member Opportunity Colleges Army Degree (SOCAD) website <https://www.education.army.mil/socad.aspx>. See Appendix E for more information on how to obtain college credits.

(a) Educational Goals:

- (1) Staff Sergeant: Should set their educational goal of enrolling in an associate degree program
- (2) Sergeant First Class: Should set their educational goal of completing an associate degree
- (3) Master Sergeant / First Sergeant: Should set their educational goal of enrolling in a bachelor's degree program
- (4) Sergeant Major / Command Sergeant Major: Should set their educational goal of completing a bachelor's degree. Due to limited authorizations and fiercely competitive records, civilian education may be considered a major factor for selection to Command Sergeant Major (CSM) positions.

7. *Jumpmaster.*

All Critical Leadership Development opportunities are airborne assignments. All active-duty Special Forces NCOs should attend the Static Line or Military Free-Fall Jumpmaster Course at the earliest opportunity.

8. *Army Career Tracker (ACT).*

ACT is a leadership development tool that integrates training and education into one personalized, easy-to-use website. Users can search multiple Army education and training resources, monitor their career development, and receive personalized advice from their supervisor, Army leadership, and individually selected mentors. The chain of command and the Noncommissioned Officer support channel assist Soldiers in managing their careers through counseling, mentoring, and coaching. Leaders should also assist Soldiers in establishing an individual development plan within the ACT website. The College of the American Soldier, accessible through the career resources tab on the

Army Career Tracker (ACT) is designed to expand existing civilian education choices for Soldiers to provide them with degree options that will enhance their leadership capabilities while maximizing college credit granted for military experience.

9. *Professional Reading.*

Special Forces Soldiers of all ranks should pursue self-development and understanding of the Army profession through professional reading. Special Forces NCOs of all ranks should read titles from the Sergeant Major of Army's recommended reading list which can be found at the Association of the United States Army website: <https://www.ausa.org/programs/nco-and-soldiers/sma-weimer-reading-list>.

A list of military publications Special Forces NCOs should all be familiar with is in Appendix F.

Appendix E – Civilian Education

1. College Opportunities: Many opportunities and resources exist to support Special Forces Soldiers in pursuing their civilian education: Army Continuing Education System; Army eLearning; Army University; Defense Activity for Non-Traditional Education Support; Army IgnitED; Joint Service Transcript; and Advanced Civil Schooling opportunities. Achievement of college or higher-level degree credits can be also completed during the MOS training process, as modeled by the 18D SOCM program degree.
2. Army Continuing Education System (ACES): ACES programs and services support the self-development domain of the Army leader development tenets by providing Soldiers opportunities for traditional and technology-based education and support for personal and professional career goals. The ACES programs assist Soldiers in achieving the lifelong synthesis of the knowledge, skills, and experiences required for success. Enlisted Soldiers should master the academic skills needed to perform the duties of their primary military occupational specialty and to meet prerequisites for the Noncommissioned Officer Professional Development System (NCOPDS) IAW AR 621-5.
3. Army eLearning: The Army eLearning Program provides free training to all Active Army, Reserve, National Guard, ROTC (MS III/IV), and DA Civilians. The 3,500 web-based courses in Information Technology (IT), Business, Leadership, and Personal Development are available 24x7 from anywhere using an internet connection.
4. Army University: The Army University is a professional military education university system of the United States Army. It is the most extensive professional military education system globally with over 150,000 soldiers educated in more than 88 occupations across its worldwide network of 70 schools. <https://armyuniversity.edu/>.
5. Defense Activity for Non-Traditional Education Support: Soldiers are encouraged to earn additional college credit for knowledge acquired outside of the traditional classroom through the Defense Activity for Non-Traditional Education Support (DANTES) <https://www.dantes.doded.mil/EducationPrograms/get-credit/creditem.html>. College Level Examination Program (CLEP) and DANTES Subject Standardized Tests (DSST) are exams that test the mastery of college-level subjects acquired a variety of ways—through general academic instructions, significant independent study, or extracurricular work.
6. Army IgnitED: Army IgnitED is a virtual gateway for all eligible Soldiers to request college tuition assistance or funding for professional credentials and certificates online anytime, anywhere for classroom and distance learning. It allows Soldiers to manage their education records including college classes, testing, and Army Education Counselor support. Through Online programs, Education Centers and On-site programs offer over 300,000+ college courses.
7. Joint Service Transcript: Joint Service Transcript is an academically accepted document approved by the American Council on Education (ACE) to validate a service member's military occupational experience and training along with the corresponding ACE college credit recommendations. Joint Service Transcript can be accessed at <https://jst.doded.mil/jst/home>.
8. Advanced Civil Schooling. Advanced Civil Schooling opportunities are available for Special Forces NCOs. The National Defense University (NDU) Joint Special Operations Master of Arts (JSOMA) Strategic Security Studies degree program is conducted under the auspices of the U.S. Army John F. Kennedy Special Warfare Center and School (USAJFKSWCS). Naval Postgraduate School (NPS) in Monterey, California provides a Master of Science. SF NCOs in the grade of SSG/E6 and above with a minimum of six years' Time in Service (TIS) and no more than 13 years TIS are eligible. Application requirements are published annually. Note: NCOs who graduate from NDU, NPS or similar programs will incur a one to two ratio utilization duration tour per AR 621-1.
