

TRUSTED SYSTEMS. REAL IMPACT.

PM LOG-F\$N

PROJECT MANAGER LOGISTICS-FINANCE

WHAT IS PM LOG-FIN?

A solutions development organization that drives Warfighter readiness by managing the global supply chain from the Organic Industrial Base (OIB) to the tactical edge.

WHAT DOES PM LOG-FIN DO?

PM LOG-FIN enables worldwide operations and provides enterprise-level financial and logistical support to ensure the Army is resourced, audit-ready and prepared for multidomain operations

WHO WE ARE

- Army's enterprise resource planning (ERP) technical experts.
- Acquisition professionals that are bringing innovation to technical contracts.
- Users of the industry's best practices
 - Low Code / No Code Approach
 - Human/Soldier-Centered Design
 - Program-Based, Outcome-Driven Solutions

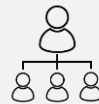

Chartered in 2023 as PM EBS-C, adding AESIP Hub and LIS in 2025

3 products: EBS-C, AESIP Hub, LIS

EBS-C
ENTERPRISE BUSINESS SYSTEMS CONVERGENCE

Support for Active, Guard & Reserve Soldiers and Army Civilians

VISION

Transform and unify financial and logistics systems to meet the demands of large-scale combat and sustainment missions.

MISSION

Enable worldwide operations and provide enterprise-level financial and logistical support to ensure the Army is resourced, audit-ready and prepared for multidomain operations.

MAGNITUDE

- 6 projects and supporting efforts
- TC-AIMS & RF-ITV track **100k+ vehicles** traveling millions of miles/year globally
- SAAS is actively deployed at **131 Ammunition Supply Points (ASPs)** worldwide to receive, store and issue ammunition at both tactical and installation locations.
- AESIP Hub has **104k+ annual active users**

2026 TOP GOALS & PRIORITIES

AESIP HUB

- Amazon Web Services (AWS) 2.0 Migration
- Basic capability support, technical debt reduction, audit and cyber compliance
- LDAC capability transition to Vantage

LIS

- SAAS – Remains available and cybersecurity compliant until subsumed by EBS-C
- RF-ITV – Incorporating Satellite and Cellular Transponders
- PBUSE – Continue providing Software Application support to the Special Operations Commands, i.e., Oracle Quarterly Patch updates, break-fix, regulatory changes
- TC AIMS II – Collaboration with key stakeholders for TC-AIMS II capabilities transition into replacement systems

EBS-C

- Streamline, standardize and unify business operations while improving auditability.
- To improve user experience and increase efficiency, the Army is modernizing business operations to consolidate data into one easy-to-use platform.
