

SPEED. EXCELLENCE. EFFICIENCY.

PD BUSINESS TECHNOLOGY SOLUTIONS

WHAT IS PD BTS?

PD BTS is a multifaceted organization offering a wide array of technology and administrative solutions. It specializes in providing application, managed, and infrastructure services, including Army edge computing and storage capabilities.

WHAT DOES BTS DO?

BTS enhances security and efficiency by offering data center hosting, secure remote access, automated testing, vulnerability scanning and secure integration between applications. Additionally, it delivers enterprise-level software solutions for records and task management, alongside support for Power BI and commercial off-the-shelf products.

WHO WE ARE

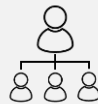

- CPE's trusted business technology solution acquisition professionals.
- A proven team dedicated to speed, efficiency and excellence.

5 Product offices to include Army Enterprise Staff Management Systems, ALTESS, Enterprise Cloud Tools, HR Solutions, and MILTECH

Manages 125+ applications with 83+ Army and Joint Forces mission partners.

VISION

Lead the digital transformation across the Army, seamlessly integrating technology and business processes to provide an unparalleled strategic advantage and ensure mission success.

MISSION

Empowering mission success by delivering a fully integrated suite of secure technology solutions, advanced enterprise applications, and comprehensive solutions that enhance efficiency, ensure security, and support every stage of the operational lifecycle.

MAGNITUDE

- Supports over 90 mission partners
- Supports over 32,000 taskers daily
- Supports **1.1 million** Active, Guard and Reserve Soldiers, **330,000** Army Civilians and Joint Forces.

TOP GOALS & PRIORITIES

Why we do what we do, every day:

- PD BTS is a diverse workforce that provides solutions globally across all Army Commands and Joint Forces to support the Warfighter.
- Our current priorities align with the highest U.S. Army focal points: People, Modernization and Readiness.
- Our priorities include delivering efficiency by using modern business practices and software to deliver solutions to the Army and CPE.

BY THE NUMBERS

359

Current number of military, civilian, matrix and contractors comprising the PD BTS workforce

3

Number of states where O5/O6 office commands are staffed

4

The number of geographical locations where team members are stationed
