

SPEED. EXCELLENCE. EFFICIENCY.

CONSOLIDATED ENTERPRISE RESOURCE PLANNING (C-ERP)

WHAT IS C-ERP?

C-ERP is the Army's current enterprise resource planning (ERP) systems sustainment acquisition organization.

WHAT DOES C-ERP DO?

Operate, secure and govern today's virtual environments while enabling the unified, data-driven foundation required for the execution of logistics and finance business processes.

WHO WE ARE

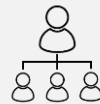

- Combination of Civilians from CPE ES2 & AMC/CECOM/ASIC
- Industry partners

Founded as Consolidated Enterprise Resource Planning, C-ERP, in 2025

1 Project Management Office, 4 System management offices and 1 acquisition programs

Support for 157K Active, Guard & Reserve Soldiers & Army Civilians

VISION

C-ERP strives to create a future where the Army operates on a fully integrated, secure and data-driven digital backbone that accelerates decisions, strengthens agility and unites the enterprise through modernized SAP capabilities.

MISSION

C-ERP ensures continuous, secure and resilient operation of our current logistics and finance ERP systems' landscape, while accelerating unified business processes and a governed application ecosystem that enables SAP modernization and convergence.

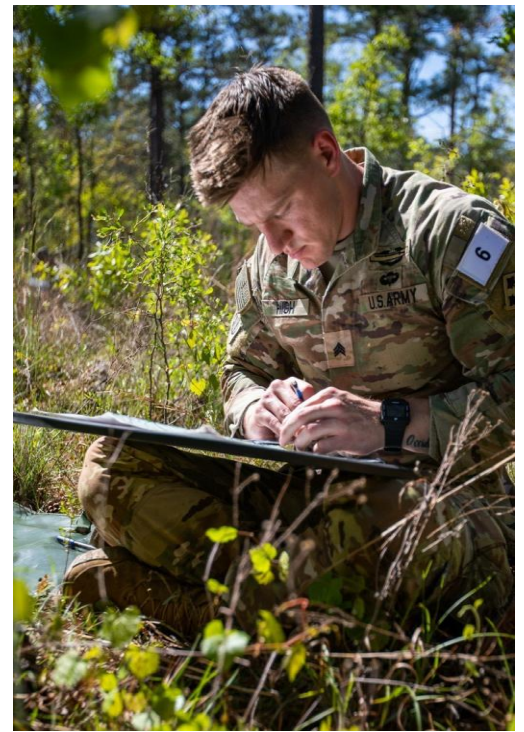

MAGNITUDE

- Over 35 **million** daily business system transactions
- Processes approximately \$19.8B+ in ACWF, \$190B+ annual obligations and \$100B+ in equipment & inventory; with over 1000+ interfaces.

TOP GOALS & PRIORITIES

Why we do what we do, every day:

- Sustain Current ERPs – Our priority is to sustain current ERPs by maintaining the operational stability, performance and reliability of existing ERP systems.
- Reduce ERP Sustainment Costs – A key goal is to reduce ERP sustainment costs by optimizing processes, contracts and technologies to decrease the total cost of ownership.
- Achieve Audit Readiness – We prioritize achieving and maintaining audit readiness by ensuring data integrity, traceability, internal controls and compliance to support full auditability.
- Enable Modernization – We remain focused on enabling modernization by supporting application upgrades, cloud-aligned architectures and updated SAP core capabilities.

BY THE NUMBERS

1000+ military, civilian, matrix and contractors comprising the C-ERP workforce

4
Number of states where O5 system commands are staffed

22
The number of geographical locations where team members are stationed
