

Bolstering Foreign Military Sales with data transparency

FOREIGN MILITARY SALES – ARMY CASE EXECUTION SYSTEM

WHAT IS FMS-ACES?

Foreign Military Sales – Army Case Execution System (FMS-ACES) is the U.S. Army’s official software platform that manages international sales of military hardware and services. It provides a single, cloud-based environment for Army personnel to handle the entire process—from initial case implementation and financial tracking to logistics and final case closure. It replaces a 50-year-old system, integrating with over 20 government data sources to ensure all information is accurate, transparent and auditable.

WHAT DOES FMS-ACES DO?

FMS-ACES is the Army’s authoritative source for FMS data, providing trusted, timely and secure data to support the FMS business processes.

WHO WE ARE

The FMS-ACES product office is responsible for ensuring the operational capabilities are developed, procured, fielded and continually modernized for the Army FMS community and its stakeholders.

Program started in 2023 in response to the Case Execution Modernization Initiative (CEMI) Federated Approach Memo signed June 2021 by the Director of the Defense Security Cooperation Agency (DSCA).

Functional Sponsor: Army Defense Exports & Controls (DASA(DE&C))

Necessary to keep pace with modern technologies, cybersecurity, auditability, financial compliance and DSCA requirements.

VISION

Deliver a decisive advantage in security cooperation through a modern, unified Army’s Foreign Military Sales Case Execution platform that ensures data superiority, full visibility and agile case management.

MISSION

Deploy an integrated solution that meets the needs for Army’s Foreign Military Sales Case Execution through innovative capabilities, automated interfaces, and enhanced reporting and data analytics.

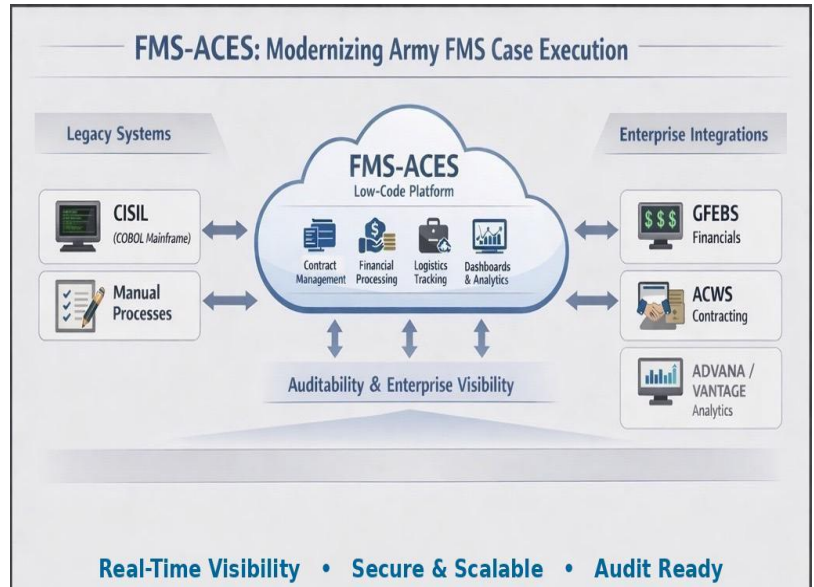

MAGNITUDE

- Support 5,500 individuals within the Army Security Assistance Enterprise including 2,000 end users executing cases within 27 Stakeholder Commands.
- Manage over **\$200B** in value for more than **140 nation partners**.
- Exchange information with **25** distinct financial and logistic systems of record partners for end-to-end process execution.

TOP GOALS & PRIORITIES

Why we do what we do, every day:

- Ensure high-quality, on-time, total package delivery to partner nations, resolving strategic issues and performance challenges identified across existing Army FMS processes.
- Reduce our solution landscape, optimize our business processes, maximize the use of automation and provide awareness and transparency throughout our processes.
- Provide enhanced efficiency through user-centric design; modern, customizable, intuitive user interface to improve overall end-user experience.

BY THE NUMBERS

Manage over **\$200B** in value for more than **140** nation partners

Exchange information with **25** distinct financial and logistic systems of record partners for end-to-end process execution

FMS-ACES will replace **3** legacy systems into **1** modernized solution
