ACC-APG

ARMY CONTRACTING COMMAND
ABERDEEN PROVING GROUND

ABOUT US

We provide comprehensive contracting, business advisory support and sustained expertise through these competency areas: Research & Development; Command, Control, Communications, Computers, Cyber, Intelligence, Surveillance & Reconaissance (C5ISR); Installation Readiness; Chemical, Biological, Radiological, and Nuclear Defense (CBRND); Test & Evaluation; Sustainment; and Soldier protection. ACC-APG is also the Army's Digital Capabilities Contracting Center of Excellence (DC3oE), responsible for all digital procurements.

ACC-APG is the premier leader in acquiring quality, technologically superior, next generation equipment and services in the shortest time for our warfighters while obtaining best value for the American taxpayer. We are a full service, life cycle acquisition organization with expertise in market research as well as the solicitation, award and administration of contracts, grants, cooperative agreements and other transactions.

SUPPORT TO ARMY PRIORITIES

ACC-APG continues to facilitate unity of command and effort aligning resources and capabilities to support the Army's People, Readiness, and Modernization priorities.
