

Congratulations and thank you for your participation in this year's Combined Federal Campaign (CFC). Our Army units in Hawaii donated more than \$993,000. This year's total represents an increase in donations more than 85% higher than last year's campaign!

In large measure, our success was due to the hard work and dedication of our company-level CFC representatives, and we owe each of them our thanks for a job well done. But at the end of the day, the generosity of our Soldiers and Civilians allowed us to make a significantly larger contribution to the overall CFC effort.

On behalf of all of the organizations which benefit from your CFC contributions, I thank each of you for your selflessness, your care for your fellow citizen, and your continued professional example. Your actions in this campaign are just another illustration of the power and capacity for good that lies within our US Army, Pacific Family.

ONE TEAM!

Mahalo Nui Loa,

Francis J. Wiercinski  
Lieutenant General, US Army  
Commanding
