

The
STRONGEST
Army
in the
world is
STRENGTHENED
by

There's strong ... and then there's Army Strong.

The strength of our nation rests with our Army and the strength of our Army rests in our Soldiers. It's critical, then, that the systems providing materiel to Soldiers where and when they need it only further strengthen their ability to complete their mission.

The **U.S. ARMY LOGISTICS MODERNIZATION PROGRAM** has been strengthening the Army since 2003, with advanced capabilities to track and manage maintenance, repair and overhaul orders. As enhancements continue, the LMP will only deepen the support it provides to Soldiers and ensure we remain Army Strong.

ARMY STRONG.™

LMP ... World-Class Logistics for Soldier Support
