the 1990s, the number of people in the world who are poor has increased from 1.1 billion to 1.5 billion.

There are a number of reasons for this. One is that the world population has increased from 5 billion to 6 billion. Another is that the number of people who are poor has increased in many of the world's poorest countries. This is because of a number of factors, including the fact that many of these countries have experienced economic stagnation or decline, and that many of them have high birth rates.

There are a number of ways in which we can help to reduce the number of people who are poor. One way is to help to improve the economic situation in the world's poorest countries. This can be done by providing them with the resources and support that they need to develop their economies. Another way is to help to improve the lives of the people who are poor in these countries. This can be done by providing them with access to education, healthcare, and other basic services.

There are a number of organizations that are working to help reduce the number of people who are poor. These organizations include the World Bank, the International Monetary Fund, and the United Nations. They are all working to provide the world's poorest countries with the resources and support that they need to develop their economies and improve the lives of their people.

The Department of Veterans Affairs (VA) in partnership with the Department of Defense have launched a new resource for military families: Parenting for Service Members and Veterans (<http://militaryparenting.org>) The new website offers anonymous self-help modules designed to provide military parents the skills and resources they need to improve their parenting and connect with their families. The interactive activities and stories of real military and veteran families provide valuable skills for everyday challenges of raising military children, with particular emphasis on reconnecting following a separation such as deployment.

School Age Care / 764-5298/5297

Spring is in the air and we are excited at School Age Care. The air is getting a little warmer and the kids are starting to go outside more, but please don't forget they still need their coats. Our annual Garden will be underway very soon. We have some exciting new plans for the garden and a few new things for our outdoor classroom space, stay tuned for more to come.

Don't forget about all of our regular weekly programs, the kids love them and seem to never get tired of them.

Power Hour: Power Hour is a dedicated quiet time for children to work on homework together or independently. We also have staff who assist the students with their homework needs. This program is offered Monday-Thursday

Movie Madness: Is on Tuesdays and Thursdays. This is an opportunity for small groups of children to get together with their friends and watch a movie from our movie library

4-H Fridays: Fridays are dedicated to 4-H Clubs. Each SAC child is a member of a 4-H club. This is a chance for our children to learn new skills, develop new interest and grow their leadership abilities.

The Book Club will be starting another new book. It's exciting to see these young folks taking initiative and joining these beneficial clubs.

No Screen Wednesday: Every Wednesday all computer equipment is turned off. Many of you ask what do the kids do....???? We say, lots of things!!!

**We have hourly care space available for families in need of occasional care. These slots fill fast, especially over the holidays; so if you need to reserve a space please do so quickly.*
