

<b>Basic issue items (BII) and components of end items (COEI)</b>	Ensure all authorized BII and COEI are present or on order.
<b>Modification work orders (MWOs)</b>	Ensure all routine, emergency, and urgent MWOs are applied and reported in the Modification Management Information System.
<b>Scheduled services</b>	Perform equipment services within the scheduled service intervals.
<b>Higher level repairs</b>	Corrective actions requiring higher level maintenance are put on a work order.
<b>Parts and supplies</b>	Ensure parts that are not on hand are on valid funded requisition.
<b>Repairs and services</b>	Complete corrective actions when required parts are on hand.
<b>All faults identified</b>	Use technical manual 10/20 checks to identify faults.
<b>Fully mission capable</b>	If all are complete, the equipment is fully mission capable.
