ARMY CIO/G-6

Mr. Greggory A. Judge
Acting Director, Operations and Architecture

Mr. Gregg Judge serves as the Acting Director of Operations and Architecture and Chief Data Officer at the Headquarters, Department of the Army, Office of the Chief Information Officer (CIO)/G-6.

As the Acting Director, Mr. Judge reports directly to the Army CIO/G-6. He is responsible for ensuring the interoperability and supportability of the Army's Information Technology Architectures and leading the planning, development, and implementation of the Army's Enterprise Architecture. As the Army Chief Data Officer, he is the senior advisor to the Army CIO and the Secretary of the Army on data issues. In this role, he is responsible for implementing the Army Data Strategy and overseeing the Army Data Management Program, including chairing the Army Data Board.

Previously, Mr. Judge was 1 of 10 Civilians recruited for the inaugural Chief of Staff of the Army's Strategic Studies Group to research strategic issues the Army would likely face in a 20-year timeframe; and served as the Deputy Product Manager, Acquisition Business Systems within the Army's Program Executive Office, Enterprise Information Systems (PEO EIS). He has extensive experience in information technology architecture, program management, software and hardware integration, data center consolidation, and supply chain management.

Mr. Judge's professional career includes over 15 years in private industry as an Engineer and Technical Manager at several companies in California's Silicon Valley. As a defense contractor with GTE Systems, he designed and integrated communications equipment and subsystems for intelligence community customers. In the commercial realm, Mr. Judge has held engineering, management, and technical marketing roles at leading semiconductor firms, Altera and Actel corporations, as well product manager at Invox Technology, a venture-backed startup company. In addition, he spent several years consulting in network architecture, data center operations, and network security at wireless telecommunications and internet service providers Earthlink, Teligent, and SkyOnline.

Mr. Judge's holds a Master of Science in National Resource Strategy from the National Defense University's Industrial College of the Armed Forces and a Bachelor of Science in Electrical Engineering from Arizona State University. He is currently working on his Master in Program Management from the Naval Postgraduate School. He also holds Level III Acquisition certifications in Program Management and Information Technology, as well as several professional IT certifications, including Certified Information Systems Security Professional (CISSP), National Security Agency's Information Assurance Methodology (NSA/IAM), NSA's Information Evaluation Methodology (NSA/IEM), and Carnegie Mellon's Architecture Tradeoff Analysis Method.

Mr. Judge's awards include the Superior Civilian Service and the Commanders' Award for Civilian Service.
